

SL Alabama to add 200 jobs

SL Alabama announces its plans to add 200 jobs at its Alexander City Facility.

JS Kim, President of SL Alabama, said the company will soon undergo a 75,000 square foot expansion that will increase their building administration and production floor capacity by 35 percent. The automobile manufacturing plant currently has over 520 employees, and they expect to be able to add over half of the 200 new jobs before the end of 2010.

"I would like to thank Mayor Young and the Alexander City Council for their cooperation and support," SL Alabama President JS Kim said during the announcement. "I would also like to thank Tallapoosa County, the state of Alabama and Don McClellan and Sandra Fuller with the Lake Martin Area Economic Development Alliance. Without the support of all of these, the success of our company would certainly suffer.

The investment will be approximately \$23 million. This next expansion will bring the total square feet of the facility to 280,000 sq ft. and the total number of employees to approximately 700.
